Getting started

This is your personal, private space to explore your career goals. When you're ready, you will leverage LinkedIn for important steps along your career journey, such as applying for jobs, building your network, and learning new skills on LinkedIn Learning.

- 1) Sign up [for LinkedIn](#). Already have a LinkedIn account? Sign in
- 2) [Reflect](#) on your current and future career goals.

Navigating your career is hard – but you got this!

Career journeys begin with questions like:

- What do I want to do in my future career?
- How am I going to get there?
- Who can help me?
- What skills do I need for a job I will enjoy?

We hear you. Come here anytime you want help along your journey.

The XXXX app is here to help as you:

- Decide on a major
- Explore job roles
- Find a job or internship
- Discover career paths taken by your school alumni
- Build a network, starting with people you know
- Identify the skills you're building

About

This app is powered by Microsoft and LinkedIn technologies aimed to help undergraduate and graduate students move forward on their career journey. You'll see opportunities to personalize your experience so the app can better support your career journey.

How we use data to power your experience

- O365 school account for profile and personalized network recommendations.
- LinkedIn account to leverage your profile and share personalized job and network recommendations.
- Option to upload transcript to identify the courses you've taken so far.
- Option to upload resume to extract the skills you've gained from your work experiences.

Support

Need assistance?
We'll get you the help you need.

[Get started](#)

The mission of Microsoft: empower every person and organization on the planet to achieve more. Microsoft believes technology can and should be a force for good and that meaningful innovation can and will contribute to a brighter world in big and small ways.

The mission of LinkedIn: connect the world's professionals to make them more productive and successful.

LinkedIn, the world's largest professional network with more than 610 million users in more than 200 countries and territories worldwide.

Your skills and interests

On your career journey, it helps to see what skills you have gained, how you can leverage these skills in job roles, and areas to develop your skills further.

Your skills

Skills identified from past learning and work experience

Add a new skill 

No skills added. Trying adding these skills:

Time management +

Public speaking +

Writing +

Extract skills from your resume, transcript, or other documents

Skills Explorer

Easier than manually adding

Extracting skills from documents can help improve network opportunities, recommended jobs, and learning resources.

Your interests

Skills you are interested in learning

Add a new interest 

No interests added. You might be interested in:

Software development +

Programming +

Explore learning resources to gauge your interest in specific skills

Start learning

As you identify your skills

- Reflect on how your experiences increase your skills
- Use the Skills Explorer to help identify your skills
- Identify skills you are interested in learning
